

TBC SOLUTIONS, INC.

TBC Solutions, Inc. is a service-disabled, veteran-owned small business and a prime federal contractor providing writing, editing, publication, and business improvement services under multiple contracts with the Bureau of Indian Affairs, Office of the Special Trustee for American Indians; Office of Wildland Fire Coordination; and Policy, Management, and Budget Assistant Secretariat. TBC Solutions has over ten years of experience in the areas of writing and editing, peer review of technical and regulatory documentation, and coordination and preparation of technical and cost proposals.

SERVICES

- Development and preparation of standard operating procedures, work instructions, and guidance documents
- Development of training manuals, and stakeholder presentations related to technical, management, and business processes
- Development of style and format guides for the preparation of various documents
- Preparation of graphics, tables, photographic images, maps, statistics, and illustrations
- Preparation of final reports, procedures, instructions, and manuals
- Peer review of technical and financial documentation for accuracy and requirements compliance
- Facilitation of stakeholder working groups for the purposes of fact gathering, consensus building, dispute resolution, and strategic planning
- Writing and editing of reports, procedures, instructions, and presentations

PERSONNEL

The TBC Solutions staff has a wide range of technical and functional skills related to preparation and publication of documentation in the areas of strategic planning, environmental policy and compliance, management and business improvement, contracting and procurement, health & safety, budget and finance, human resources, cultural issues, and other governmental management related issues. Staff members have extensive backgrounds in the areas of technical editing; development and preparation of procedures, publications, and forms; development of media formats; standardization of documentation, and publication of documentation including production of graphics, tables, photographs, maps, statistics, and illustrations. Senior-level managers within the TBC Solutions organizational structure also have significant management experience in the general areas of contract management and technical assistance. These managers have performed oversight duties for a wide variety of projects for both commercial firms and government agencies.
